The client found us based on our 200kg/h peppers and cloves of Spices Microwave Drying Sterilization Machine webpage and sent us an enquiry. I contacted the client immediately and sent an email to the client about the questions I needed to ask the client.

The client found us based on our 200kg/h peppers and cloves of Spices Microwave Drying Sterilization Machine webpage and sent us an enquiry. I contacted the client immediately and sent an email to the client about the questions I needed to ask the client.

The client quickly replied to the email with his contact information , The customer is called Mahinda, The customer owns a factory, his factory has a biscuit production line and pet dog food production line, Mahinda also has a farm to produce spices, Such as cloves, peppers, etc. The main products are cloves and peppers. Customers want dried fresh cloves and peppers to sell to the market.

The customer has a brief understanding of the information of the Spices Microwave Drying Sterilization Machine. Before wanting to buy, we inquired about the customer's desired output of 200kg/h, and inquired about the moisture content of the customer before and after drying. Before drying, the cloves and peppers were 70% moisture content, 4% moisture content after drying. The heating method required by the customer for the microwave machine is gas heating. We first shared the parameters of the Spices Microwave Drying Sterilization Machine with our customers.

200 kg/h peppers and cloves of Spices Microwave Drying Sterilization Machine layout

Parameter of 200kg/h peppers and cloves of Spices Microwave Drying Sterilization		
Rated Input power	180KVA	
Microwave output power	150kw	Power can be automatica
Microwave frequency	2450MHz ± 50MHz	22400X 1500X 1800
Appearance size of equipment	LengthXwidthX height	
Microwave action area	Length X width X height	

Conveyor belt width	800mm polyethylene PTFE doth tape	
Conveyor belt height from ground	600±50mm	
transfer speed	0-6M/min	Frequency
Microwave transmission power	3.0	Frequency
Ambient temperature	-10-40X?	Relative humidity <80%

Mahinda has prepared a workshop for spices microwave drying sterilization machine, but because the customer's output is too large and the workshop is relatively small, we have made a layout for the mahinda according to the customer's workshop area.

Enclosed herewith is the layout we made for our mahinda.

After seeing the parameters and the layout we drew, Mahinda was quite satisfied with us. Mahinda thought our service was very attentive and professional. Mahinda's reply was much more positive than before, and he also asked a lot of questions according to spices microwave drying sterilization machine

1. Mahinda asks what other products can be dried by our production line?

Answer: Spices microwave drying sterilization machine can also dry other spices; such as dried peppers, bay leaves, etc., adjust the speed of the mesh belt to change the oven temperature, and that's it. When you want to dry other products, you can tell us the dry moisture content and products, and we will tell you the correct adjustment temperature and mesh belt speed.

Mahinda felt that the line was very functional and had a wide range of applications. More interest in spices microwave drying sterilization machine.

2.Can I replace the electrical components with Siemens?

I sent our customers the parameters of our Siemens electrical components

<b>Siemens Motor Of Siemens Electrical Components</b>		
1	Package Level 1 Units:	0 Carton
2	Product Name:	3-Phase Squirrel Cage Motor

3	Product Net Weight:	5.9 Kg
4	Product Type:	3Aa2_M3Aa_le2_Aa
5	Scip:	27ac6190-e1ce-4080-8654-6552 aaabbe58 Finland (Fi)
6	Selling Unit Of Measure:	Piece
7	Standards:	Iec 60034-1
8	Starting Of Motor:	Direct Online

200 kg/h peppers and cloves of Spices Microwave Drying Sterilization Machine processing

Mahinda was impressed by our professionalism and attentiveness, he thought we were the best producer, and the customer chose us among 5 producers.

When Mahinda pays the deposit, we immediately produce for the customer, and give the customer feedback on the process of machine production during the production period. Very satisfied Mahinda!
